PROFESSIONAL SUMMARY

Senior Frontend Engineer with 9+ years building high-performance web and cross-platform applications using React, Vue, React Native, and modern TypeScript/JavaScript ecosystems. Proven track record delivering measurable product impact across booking, checkout, engagement, and mobile experiences (30%+ conversion gains, 15% reduction in abandonment). Specialized in scalable frontend architecture, design systems, and performance optimization, with full-stack experience including GraphQL APIs, Node.js, and CI/CD pipelines supporting end-to-end delivery.

CORE EXPERTISE

- Scalable Frontend Architecture
 - Design Systems & Component Libraries
 - Performance Optimization
 - Product-Focused Engineering
-

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer (Full-Stack Contributions)

Rb2 | Netherlands

Jan 2022 - Sep 2025

- **Designed and scaled a modular frontend architecture (component systems / micro-frontend patterns)**, enabling faster feature delivery and improved maintainability across multiple product teams.
- **Increased customer engagement by ~40%** by architecting and delivering high-performance frontend systems using React (Next.js, Remix) and Vue (Nuxt), improving UX consistency and responsiveness across key product flows.
- **Reduced cart abandonment by ~15% and improved booking conversions by ~30%** by optimizing product search, checkout flows, and overall user journey across multiple client platforms (EuroParcs, Wovar).
- **Expanded engagement by ~25% across multilingual users** by implementing scalable internationalization (i18n) strategies integrated with CMS-driven content systems.
- **Reduced deployment time by 50% and doubled release frequency** by implementing CI/CD pipelines with GitHub Actions, enabling zero-downtime deployments and reliable release automation.
- **Increased lead conversion by ~40%** by building and launching Core Connect, a high-performing SaaS landing experience.

Senior Frontend Engineer

PodCreator UG | Berlin, Germany

May 2024 - Jul 2024

- **Led frontend architecture and delivery of Gistable MVP**, driving user engagement ~30% above projections through scalable UI systems and optimized UX flows.

- **Reduced frontend development time by ~40%** by designing and implementing a reusable component system (40+ components) using React, Vite, Vike, and TailwindCSS.
- **Improved application performance and accessibility**, contributing to a ~30% increase in key UX metrics and overall usability.

Senior Mobile Engineer

Codevillage LLC | Ilorin, Nigeria
Feb 2024 - May 2024

- **Led development** of the PIF mobile application using React Native, **improving cross-platform performance and responsiveness by ~30%**.
- Restructured the application codebase to improve stability, eliminate recurring crashes, and support faster feature delivery and iteration cycles..
- **Improved backend response times by ~30%** through API and architecture refinements supporting mobile workflows.
- Implemented automated testing pipelines **achieving ~95% test coverage and reducing production regressions**.
- Integrated Sentry for real-time error tracking and debugging, **reducing bug resolution time by ~40%**.

Lead Mobile Engineer

Fluidangle LLC | Boston, MA, USA
Sep 2021 - Dec 2021

- Led frontend architecture and UI development for cross-platform Flutter applications, reducing crashes and increasing task completion rates by ~35%.
- Improved UX through responsive layouts, accessibility enhancements, and interactive mobile experiences.

Senior Frontend Engineer

Aitechma | Lagos, Nigeria
Jun 2021 - Sep 2021

- **Increased development speed by ~30%** by engineering Zabira (crypto & gift card trading platform) using Angular and TailwindCSS, accelerating feature delivery and iteration cycles.
- **Improved user engagement by ~25%** by designing and optimizing transaction flows, dashboards, and business logic for smoother user interactions.
- **Boosted user retention by ~15% and improved UX metrics by ~20%** by refining UI/UX in collaboration with design, focusing on data visualization and usability improvements.

Software Engineering Manager (Hands-on)

Footprint Intelligence | Munich, Germany
Sep 2020 - Jan 2022

- **Led and contributed hands-on to the development of a carbon emissions tracking platform**, enabling users to reduce environmental impact by ~20% through data-driven insights and scalable frontend architecture built with Vue.js and TailwindCSS.
- **Increased daily user interactions by ~35%** by designing and delivering a cross-platform mobile application (Flutter) with gamification features and improved UX flows.
- **Improved system performance and stability by ~35%** by optimizing cloud architecture using Firebase and MongoDB Realm, reducing database query times by ~25%.

Frontend Engineer

Anyskills Inc. | Birmingham, UK
Jul 2019 - Aug 2020

- **Improved frontend data-fetching efficiency by ~35%** by contributing to a Vue.js platform using a Backend-for-Frontend (BFF) architecture with REST APIs.

- **Developed 35+ reusable Vue.js components with Vuex and Vuetify**, contributing to a consistent design system and improved UX.

Mobile & Full Stack Developer

Override Digital Agency | Ilorin, Nigeria

Jul 2017 - Jun 2019

- Integrated four payment gateway APIs and programmed crypto transfer endpoints using Ether.js; optimized system performance with serverless functions, resulting in a ~50% reduction in transaction latency and enhanced user satisfaction.
 - **Improved client conversion rates by ~35%** by delivering secure, accessible applications aligned with modern web standards.
-

EDUCATION

Bachelor of Science (BSc), Telecommunication Science

University of Ilorin | Ilorin, Nigeria

Mar 2016 - Aug 2021

SKILLS & TECHNOLOGIES

Frontend (Primary): React, Next.js, Vue, Nuxt, Svelte, Remix, TypeScript, JavaScript, HTML, CSS, TailwindCSS, React Native, Flutter

State & Data Management: TanStack Query, Redux, GraphQL, REST APIs

Frontend Architecture & Performance: Design Systems, Atomic Design, Micro-frontends, Performance Optimization, Accessibility

Backend (Supporting): Node.js, NestJS, PostgreSQL, MongoDB, Microservices

Mobile (Secondary): Flutter, React Native, Mobile Architecture, Cross-Platform Development

DevOps & Tooling: GitHub Actions, CI/CD, Docker, AWS, Firebase

UI/UX & Collaboration: Figma, Zeplin
